- Analitik Data Google Specialization (Coursera) - 2022
- Preparing for Your Associate Cloud Engineer Journey (Coursera) - 2022

TECHNICAL SKILLS

- HTML
- CSS
- Javascript
- PHP
- Python
- Microsoft Office
- Cloud Computing
- Data Analytics
- Database
- SQL
- GCP
- Machine Learning

SOFT SKILL

- Leadership
- Communication
- Time Management
- Problem Solving
- Critical Thinking
- Adaptability
- Decision Making
- Teamwork

LANGUAGES

- Indonesia (**Native**)
- English (**Proficient**)

PROJECTS AND EXPERIENCES

1. WEB DEVELOPMENT

Inorganic Waste Classification System Based Website

- Feature: Input waste image and generate waste type classification
- Skills: Python, Flask, Machine Learning, FullStack Development

Dynamic Website for UMKM

- Feature: Authentication and admin panel page to modify content on the homepage
- Skills: HTML, CSS, JS, MySQL, PHP, Bootstrap, FullStack Development

Inventory Data Collection Website at Company X

- Feature: Dynamic Website, authentication & authorization, Database
- Skills: PHP, HTML, JavaScript, CSS, MySQL, FullStack Development

Event Bootcamp Registration Website at Company X

- Feature: Registration and payment form, authentication, admin dashboard
- Skills: PHP, HTML, JavaScript, CSS, MySQL, FullStack Development

2. Skinkr Mobile Application

Skinkr Mobile App - Bangkit Academy Capstone Project

Healthcare focused program aimed to help people with acne problems.

- Create APIs and deploy Machine learning models to Google Cloud.
- Using the python programming language and flask library for building API and a Google Cloud Platform service called Cloud Run for deploying Machine learning models.
- Skills: Google Cloud Platform (GCP) · Architecting with Google Compute Engine · Cloud Computing

3. BUSINESS DEVELOPMENT INTERN (FEB - JUN 2023)

PT Gama Inovasi Berdikari

- Build collaborative partnerships with government entities to encourage mutually beneficial partnerships that foster innovation and entrepreneurship
- Conceptualize and execute impactful events to increase brand awareness and engagement of the company's ecosystem.
- Identify and rigorously evaluate high-potential startups, conducting comprehensive assessments to select candidates for incubation programs.
